

Community Projects  
Updated 6/14/07

*These proposed projects are concepts that we think appropriate for service projects. Some may need further review and approval by the City in which they are located. Viability may vary depending on the time of year. New projects will be added on an ongoing basis. We will be pleased to work with interested potential volunteers to find the right project for each person.*

General Needs

**Tool Inventory Project** – Design a form and create an inventory of all of our tools. Brand or stencil tools to identify them.

Palos Verdes Nature Preserve - Rancho Palos Verdes

1. **Trail Maintenance** – Reconstruct problem areas within the preserve
2. **Kiosk construction**-Help put together a prefabricated trail head kiosk for informational displays at one of the Reserves.

Chandler Nature Preserve- Rolling Hills Estates

1. **Trail Maintenance** – Reconstruct problem areas within the preserve
2. **Non-Native Plant Removal/Planting**- Help the Conservancy with removing non-native plants from the preserve and replacing them with native vegetation

George F Canyon Nature Center – Rolling Hills Estates

1. **Habitat Restoration**-Help restore native habitat by managing a planting project (November-March only)
2. **Build a ADA trail for the demonstration garden**- Help build a segment of the trail that winds through the planned demonstration garden. This trail should be constructed of decomposed granite with header boards. It should be constructed to be compatible with the Americans with Disabilities Act. This project is available in September 2008.
3. **Non-Native Plant Removal** -Help the Conservancy with removing non-native plants from the canyon and replacing them with native vegetation

White Point Nature Preserve - San Pedro

3. **Trail Extension** - Help build a trail that winds through the planned demonstration garden. This trail should be constructed of decomposed granite with header boards. It should be constructed to be compatible with the Americans with Disabilities Act. This project is available in October 2008.
1. **Bulletin Case Display** - This project consists of creating copy, conducting graphic layout, and producing an appropriate display for the bulletin case at White Point.

**If you are interested in one of these projects please fill out the project interest form from our web page and send it to our office ([ckitner@pvplc.org](mailto:ckitner@pvplc.org) ; 916 Silver Spur, Suite 207, RHE 90274). Please also be aware that some of these activities are seasonal-dependent.**
